EXPERIENCE

Software Development Intern

SKANLOG

August 2024 - January 2025, Cebu, Philippines

- Developed web and mobile apps in teams using modern technologies while adapting to new challenges and solving problems. Learned professional software development practices under the guidance of senior software engineers.

Data Annotator

TELUS International

July 2022 - September 2022, Remote

- Performed image annotation and captioning to enhance search engine optimization (SEO) efforts, adhering to established quotas and maintaining high-quality standards

PROJECTS

Albatross GoPark

SKANLOG • October 2024 - January 2025

- Tech Stack: VueJS, ASP.NET Core Web API, MSSQL, .NET MAUI, Keycloak
- Developed a web and mobile application designed for the management of parking spaces and for users to locate and pay for parking. Implemented authentication using Keycloak, integrated Azure Maps to display parking locations, and used Adyen for online payment.

Albatross TimeTracker

SKANLOG • September 2024 - October 2024

- Tech Stack: VueJS, ASP.NET Core Web API, MSSQL
- Contributed in a team to develop an application designed for managing and tracking activities across various locations and clients. Completed major tasks such as User Management, Activity and Attribute Management, and Task Assignment.

PAROKYANO: Gethsemane Parish Management System

Capstone Project • May 2024 - October 2024

- Tech Stack: ReactJS, NodeJS, MySQL, DigitalOcean, Semaphore SMS API
- Worked in a team to develop a web-based parish management system for the Gethsemane Church. Completed modules such as SMS integration, Service Requests, PDF Generation, and other full-stack development tasks.
